## EXPERIENCE

2024 - present

### GRAPHIC DESIGNER

Fiverr

As a graphic designer on Fiverr, I collaborate with clients from around the world to bring their ideas to life through custom designs. I specialize in creating unique logos, branding materials, social media graphics, and other visual content tailored to meet client needs. I am committed to delivering high-quality, professional designs that align with client goals while ensuring timely delivery and exceptional customer service. Each project on Fiverr allows me to refine my skills and expand my portfolio while providing innovative and impactful design solutions.

2023

### LANGUAGE TRANSLATOR

Upwork

As a language translator on Upwork, I work with clients to provide accurate and contextually appropriate translations for a wide range of documents and content. My expertise spans multiple languages, ensuring clear communication across diverse industries. I am committed to delivering high-quality translations that maintain the integrity and nuances of the original text while meeting clients' specific requirements.

## CERTIFICATES

2022

### GRAPHIC DESIGNING (PFTP)

This certificate demonstrates my proficiency in graphic design, covering key areas such as design principles, typography, color theory, and the use of industry-standard software like Adobe Photoshop, Illustrator, and InDesign. The certification reflects my ability to create visually compelling designs for various platforms, including print, web, and social media. It also validates my understanding of design processes, from concept development to final execution, ensuring that I can deliver high-quality, professional results in any design project

### Communication Skills

Successfully completed a comprehensive program focused on enhancing verbal and written communication abilities. Gained expertise in effective interpersonal communication, active listening, public speaking, and professional correspondence. Developed skills to engage diverse audiences, convey ideas clearly, and collaborate efficiently in both individual and team settings.

## EDUCATION

2020-2021

Matric in Computer Science

Army Public School Islambad

I got 1033 marks out of 1100 (94.5%)

2021-2023

ICS Intermediate in Computer Science

Punjab College H-11 Hill house Complex

I got 854 marks out of 1100 (80%)

2024-present

Bachelor's in Software Engineering

## HOBBIES

### Sketching :

Passionate about sketching as a creative outlet, using it to enhance focus, express ideas visually, and refine artistic skills. Proficient in pencil, pen, and charcoal techniques, with experience creating both detailed illustrations and abstract designs. This hobby nurtures creativity and complements professional design and visualization tasks.

### Video Editing:

Enthusiastic about video editing as a creative pursuit, leveraging software like Adobe Premiere Pro and DaVinci Resolve to craft engaging visual narratives. Skilled in cutting, transitions, color grading, and sound syncing, with a focus on creating compelling stories. This hobby enhances technical proficiency and creativity, aligning with professional multimedia and storytelling projects.
